LADOT Supports Councilmember Bonin's Request for Changes on Vista del Mar

LOS ANGELES, CA (July 27, 2017)

LADOT supports Councilmember Bonin's request for changes on Vista del Mar, and will engage in an additional public process around safety improvements in Playa del Rey.

We understand that Councilmember Bonin is working to broker an agreement with Los Angeles County Supervisor Janice Hahn to improve access to parking at Dockweiler Beach. This will open up new options for LADOT to add one additional travel lane southbound from Waterview Street to Imperial Highway and one additional travel lane northbound from Imperial Highway to Napoleon Street by removing all parking on Vista Del Mar. This construction is currently anticipated to begin in mid-August.

LADOT made some recent modifications to help to improve traffic flow on Culver Blvd from Nicholson to Jefferson. This weekend, the department is also modifying the traffic light at Vista del Mar and Culver Blvd to improve traffic flow through this intersection.

As a result of the above changes to the project, LADOT's Saturday 7/29 Open House at LMU is postponed until further notice. For additional project information, please visit <http://playadelrey.lacity.org/> or e-mail ladot.playadelrey@lacity.org.
